Mission, Vision and Value

As a growing leader in specialist professional recruitment and recruitment process outsourcing, we have a big impact on the prosperity of people and organisations. That's why we have a strong purpose that underlies everything we do: empowering people and organisations to fulfil their unique potential.

Our purpose goes beyond doing our 'job'. It's the positive impact we have on our people, candidates, clients and the communities where we operate. It's the 'why' behind what we do.

Our goal as a company is to decrease the unemployment rate in South Africa and up-skill our fellow South Africans. Youth in South Africa continue to be disadvantaged in the labour market with an unemployment rate higher than the national average. According to the Quarterly Labour Force Survey (QLFS) for the first quarter of 2022, the unemployment rate was 63,9% for those aged 15-24 and 42,1% for those aged 25-34 years, while the current official national rate stands at 34,5%. Unemployment among the youth continues to be a burden, irrespective of educational attainment.

We aim to become one of the leading career transformation company's nationally and internationally.

“

We guarantee your complete satisfaction. We handle your CV with great care in order to achieve a personalised, winning presentation as well as creating a highly marketable document that stands out and receives immediate attention.

We also provide a consulting service to an international law firm, Dentons, and assist with headhunting projects.

Benefits of a Legal Recruiter

CONFIDENTIALITY

As an experienced lawyer, looking for a new firm to join, confidentiality is probably the most important aspect of the relationship you will have with a Recruiter. The legal world can be small; so, it is important to ensure no one else knows you are seeking to transition to a new role. Utilise a Recruiter with a proven track record of creating trusting relationships, and who can communicate confidentially on your behalf with potential firms.

INDUSTRY SPECIALISATION

The most useful and successful recruitment agencies concentrate on a single industry. They spend all day, every day, focusing on the careers and opportunities available within that industry. They know where the demand is, the culture of different firms, and the personalities of employers. The Digi Bar specialises in the search and recruitment for legal, compliance, and risk professionals. Our sole dedication to the legal profession means that you are given a specialised service that includes the best access to opportunities within the legal industry sector.

CURRENT AND ESTABLISHED RELATIONSHIPS

An experienced Legal Recruiter will have multiple opportunities within multiple firms for you to compare and will be able to assist in helping you to decide which firm may be the best cultural fit for you, as well as the best for the next stage of your career.

ENSURING YOU AND YOUR CV SHINE

A good recruiter is an expert on the legal industry and on the job search process. Besides editing and amending your CV, a recruiter is skilled in making sure it highlights your most marketable traits. They will also help you to tailor it so that its appropriate for the position you want.

EXPLAINING THE HIRING PROCESS

The hiring process can be confusing, but your recruiter ought to be an expert. They can explain the ins and outs of the whole system. You will also get feedback when you go through a recruitment agency, which is essential for helping you with future applications.

BRIEFING AND PREPARING YOU FOR YOUR INTERVIEW

Once you get to the interview stage of the process, a recruiter becomes an invaluable source of information. They should be able to give you a personal insight into the personality of your interviewer, as well as the culture of the firm you are interviewing at. They will know exactly what that firm is looking for in a potential employee, so they can prepare you for the questions they might ask and help you to highlight desirable qualities in yourself.

CAREER COACHING

A good recruiter will double as a career coach. They should understand the ins and outs of employment and progression in your industry, and be aware of your market value and where you can fit in. They will provide advice when you are juggling multiple offers and can help you to negotiate your salary. Your long-term career should not only be a priority for you, but also for your recruiter.

We have fine-tuned our processes and created strong methodologies which allow us to expertly respond to clients' needs. Our standards and values mirror that of the people we service. We champion Diversity and Inclusion and our Social Purpose agenda creates opportunities via knowledge volunteering, inclusion and social mobility.

We believe our success will continue to come from investing in long-term relationships with our clients, some of the world's leading businesses and law firms.
